# OCEAN ACIDIFICATION

An Evening Seminar with Scientific Experts

*October 7, 2010*

6:00 PM - 8:00 PM

Northwest Maritime Center

431 Water Street

Port Townsend, WA

## AGENDA

**Welcome** - Brad Warren, Sustainable Fisheries Partnership

**Ocean Acidification 101** - The basic science of ocean acidification, how will it affect this region and why should we care?

*Dr. Terrie Klinger, University of Washington*

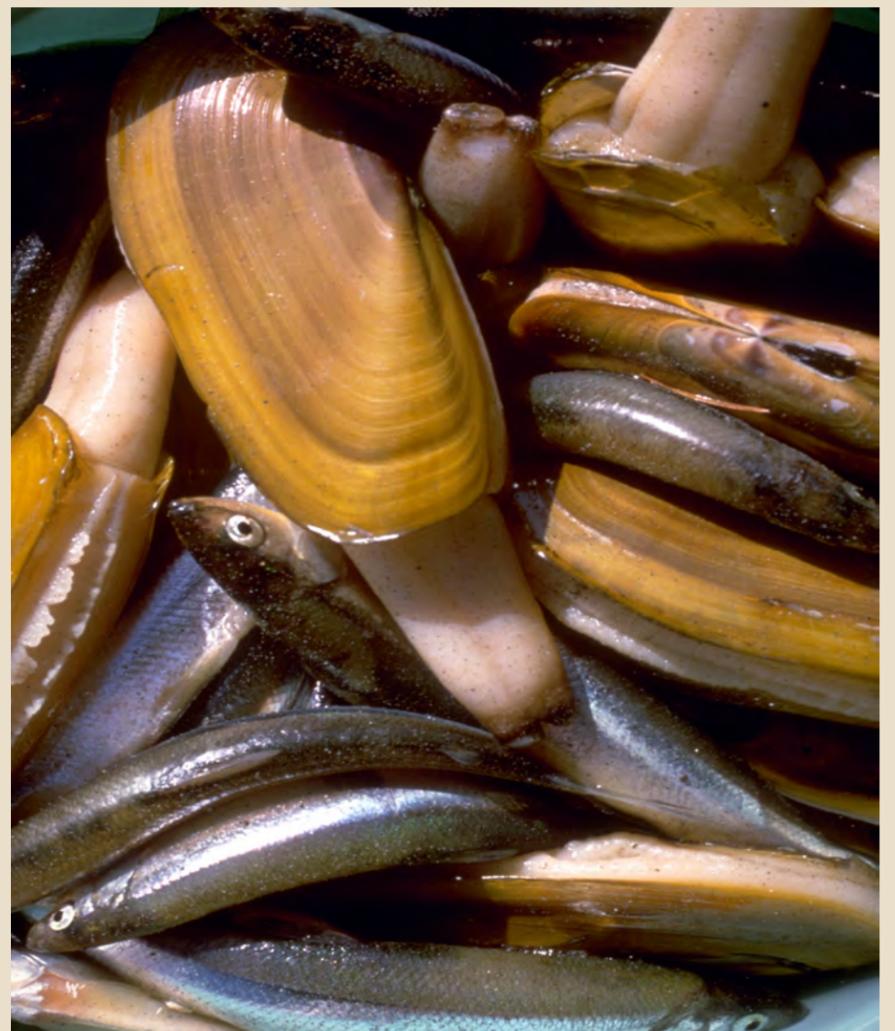

**Current research and monitoring in Washington waters** - How is ocean acidification being studied, what resources are available for concerned citizens to learn more?

*Dr. Jan Newton, University of Washington/NANOOS*

**Implications for commercial, recreational & shellfish industries in Washington** - Looking to the future of our environment and economy.

*Brad Warren, Sustainable Fisheries Partnership*

**Question and Answer period.**
