

See map (below) of the Ecology Building at **300 Desmond Drive**.

Attendees should take Exit 109 Martin Way, off I-5 and go west. The second signal light is Desmond Drive. The first left off Desmond Drive puts attendees on a road that goes in front of the Ecology Building. Once past the main entrance there is a visitors parking lot on the left and several stalls on the road leading to our main employee parking out back.

If these areas are full, attendees are encouraged to return to Desmond and either go right, cross over Martin Way and park by the Taco Bell, or go left and circle around behind Sawyer Hall and park there. All of these parking areas are indicated on the map. In either case people will have to walk back to the Ecology building. I believe parking across Martin Way is a shorter walk (less than 5 minutes uphill).

Vanpool parking is marked but the van must be in a registered Van Pool for the building, so please do not park in these stalls.
